

ASNR 48th Annual Meeting & NER Foundation Symposium 2010

THE NEURORADIOLOGY EDUCATION
AND RESEARCH FOUNDATION

May 15 - 20, 2010

Hynes Convention Center • Boston, Massachusetts

NER Foundation Symposium 2010: Cancer Imaging for the Neuroradiologist: Fundamentals to Functional and Molecular Imaging May 15 - 16, 2010

THE NEURORADIOLOGY EDUCATION
AND RESEARCH FOUNDATION

Preliminary Programming Session Topics Include:

- Preclinical Imaging: the Foundation of Changes in Practice
- Clinical Perspectives
- My Approach: The Experts. Part I. Brain Tumors
- My Approach: The Experts. Part II. Head and Neck Cancer
- My Approach: The Experts. Part III. Neoplastic Involvement of the Spine
- Induction of Cancer from Medical Imaging: Fact vs Frenzy

At the conclusion of the symposium attendees will be able to:

- 1) Apply knowledge of state-of-the-art anatomical and functional imaging of brain, head and neck, and spine neoplasms to their clinical practice of radiology;
- 2) Critically compare the relative merits of various non-invasive imaging approaches for the preoperative evaluation of patients undergoing resection of tumors near eloquent brain;
- 3) Identify key aspects of how MR spectroscopy and other imaging approaches influence treatment and management decisions of patients with CNS neoplasms;
- 4) Implement optimized protocols for distinguishing post-treatment tissue changes from recurrent or residual tumors;
- 5) Identify the potential practice implications of emerging molecular imaging technologies and innovative image-guided and non-image-guided tumor treatment methods.

ASNR 48th Annual Meeting May 17 - 20, 2010

The Executive Committee of the ASNR invites you to the 48th Annual Meeting, May 17 – 20, an event that features an historic location and an excellent educational program. Our meeting venue during the week is the Hynes Convention Center, boasting a recent full restoration and renovation and conveniently located near the Sheraton Boston and Westin Copley Place Hotels, our meeting hotels.

Plan to attend ASNR 2010 in Boston to “Stay Connected” with colleagues and refresh your knowledge of basic and up-to-date material on brain, spine, interventional and head and neck imaging.

Programming will include:

- Six (6) Proposed Self Assessment Modules (SAM) Sessions throughout the Week
- Daily Maintenance of Certification (MOC) review sessions highlighting Head and Neck, Adult Brain, Spine, Pediatrics, and Interventional
- Advanced Imaging Seminars
- Socioeconomic and Practice Management Programming
- Audience Response Plus (AR+) sessions
- Technical Exhibition
- How-To Sessions
- Scientific Exhibition
- New Programing Addition:

SYNAPTIC JUNCTION
connecting your practice

– Connect your practice to the future through offerings focused on enhancing workflow, efficiency, standardization of interpretation and reporting, and improvements in revenue cycle, particularly those that involve software, hardware and informatics-based solutions.
